

BEGINNER BLOGGING WITH WORDPRESS

DATE	Summer, 2009
PRESENTED BY:	Cathy Tibbles Desperately Seeking WordPress http://desperatelyseekingwp.com

LOGGING IN

- myblog.com/wp-login.php
- admin/ username
- password (case sensitive)

NOTES:

WRITING FIRST POST

- use html/ visual editor
- see the 'kitchen sink'
- publishing
- further possibilities

NOTES:

ADDING MEDIA

Nothing can compare to the impact that images, videos and sound has in communicating your message. WordPress has some of these functions built in.

NOTES:

- where to find more images

NOTES:

- movie embedding fix

CATEGORIES & TAGS

Categories are the perfect tool for organizing posts into searchable topics, and keeping those great posts available to your readers. NOTES:

NOTES:

Tags are very important for search functions, and 'meta tags'.

COMMENTS

Will you allow comments?
And by whom?
How to prevent spam.
NOTES:

WRITING YOUR PAGES

The difference between posts and pages.
Organizing the Pages.
Displaying the Pages.
NOTES:

FURTHER: MAINTENANCE & SECURITY

- Staying upgraded
- Installing scripts and plugins
- Using code with caution!!
- Back up frequently
- Optimize reguarly

These training hours are very much a work in progress. So please email me any comments or suggestions. Any constructive criticism is welcome too!

Happy Blogging!
Cathy
